Class Size 2005-06

Introduction

Class size reduction for the early elementary grades remained a state goal in 2005-2006, continuing efforts initiated by the Iowa Early Intervention Block Grant Program (House File 743) in 1999. Funding was allocated in 2005-2006 towards reduction of class sizes for kindergarten through third grade. Funding remained at \$29.3 million in FY 2006 unchanged from FY 2005 (see Table 1). Iowa's class size reduction goal established in Iowa Code Chapter 256D is 17 students per classroom for basic skills instruction.

Table 1

STATE CLASS SIZE REDUCTION ALLOCATIONS FOR IOWA PUBLIC SCHOOLS

Fiscal Year	State Allocation
FY 2000	\$10 million
FY 2001	\$20 million
FY 2002	\$30 million
FY 2003	\$30 million
FY 2004	\$29.3 million*
FY 2005	\$29.3 million
FY 2006	\$29.3 million

Source: Iowa Department of Education

Methodology

Public school districts report the number of kindergarten, first, second and third grade classroom sections, students, teachers, and aides by building during the Fall Basic Educational Data Survey (BEDS). Special education teachers and aides are not included in the reporting. Physical education, art, music and other "specialty" teachers are also excluded from the teacher count.

Some districts utilize multiage classrooms for their K-3 students. For example a classroom may combine first and second grade students in one room. Districts report these combination classrooms as grade level Other on the Class Size submission but these classrooms are not included in this report.

The Department of Education calculated average class size for kindergarten through third grade at the district and state level. Average class size equals the number of students divided by the number of classrooms for each grade level.

Average Class Size = Number of Students / Number of Classrooms

Since average class size uses the number of classrooms as the denominator adding additional teachers to a classroom

^{*} Note: The FY 2004 appropriation was reduced as a result of an across-the-board cut after the initial appropriation and then received a partial restoration of funds.

does not lower the average class size for that grade level. The use of classroom aides also does not reduce average class size at the district or state level.

Findings

This report provides class size data from 1998-1999 to 2005-2006 for kindergarten through third grade. Average class size increased in 2005-2006 for kindergarten, first and third grades and remained unchanged for second grade compared to 2004-2005 (see Table 2 and Figure 1). The kindergarten and first grade averages reached their second highest levels since the start of the class size reduction efforts in 1998-1999. Although unchanged from last year the second grade average was at its third highest level since 1998-1999. Despite the increases, average class size remained below 20 students for kindergarten through second grade in 2005-2006. Third grade continued to show the highest average class size per classroom of the grades examined, at 20.5 students per classroom for 2005-2006, and remained above 20 students in each year studied.

The increase in average class size in 2005-2006 continued the trend in recent years. Average class size declined for kindergarten through second grade from 1998-1999 through 2001-2002 but increased in each of the subsequent years. Third grade showed a decline from 1998-1999 through 2002-2003 but experience alternating increases and decreases in the following years.

Smaller districts were more likely to meet the state goal of 17.0 students per classroom than larger districts in 2005-2006. The average class sizes for kindergarten and first grades were at or below 17.0 students per classroom for the <250, 250-399, and 400-599 enrollment categories in 2005-2006. The <250 and 250-399 categories were below 17 students for second grade and the <250 category was below 17 students for third grade in 2005-2006.

The largest districts showed the highest average class sizes in 2005-2006. The 2,500-7,499 and 7,500+ enrollment categories experienced average class sizes of 21or more for kindergarten through third grade in 2005-2006. The average class size for these enrollment categories remained above 20 students per classroom for the past four years.

The percentage of kindergarten, first and third grade classrooms above the state goal of 17 students per classroom increased in 2005-2006. For example, the percentage of first grade classrooms above 17 students went from 68.9 percent in 2004-2005 to 72.6 percent in 2005-2006. The percentage of second grade classrooms above the state goal remained unchanged from 2004-2005.

Third grade showed a higher percentage of large classrooms compared to K-2 in 2005-2006, with 80.9 percent of third grade classrooms above 17 students per class. Although the third grade percentage was the highest, it was down compared to the 1998-1999 level of 87.4 percent. In comparison kindergarten experienced 72.1 percent of classrooms above 17 students in 2005-2006 up slightly from 71.8 percent of classrooms in 1998-1999 (see Table 8).

The growth in the number of classrooms and teachers has outpaced the growth in the number of students for each grade level from 1998-1999 to 2005-2006 (see figures 2-4). For example the number of first grade students declined (0.4) percent since 1998-1999 but the number of first grade classrooms increased 3.2 percent during the same period.

Figure 2

Number of Iowa Public School Districts K-3 Classrooms 1998-1999 through 2005-2006

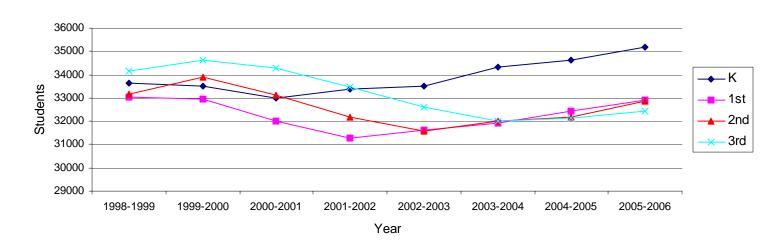

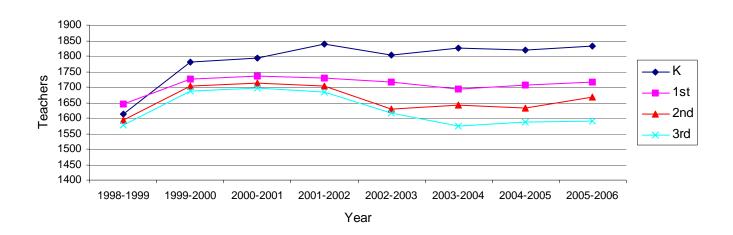

Figure 4

Number of Iowa Public School Districts K-3 Teachers 1998-1999 through 2005-2006

Declines in average class size from 1998-1999 to 2005-2006 outpaced the declines in enrollment during the same period for kindergarten and first grade (see Table 9 & 10). During this period average class size declined (1.5) percent for kindergarten while enrollment increased 4.6 percent.

Expenditures

District expenditures increased in FY 2005 to \$29,766,108 with salaries consuming the largest percentage of the total. Purchased Services, Supplies, Equipment and the Other categories were below 1.0 percent each (see Table 11 and Figure 5).

Table 11

FY05 Iowa Early Intervention Block Grant Program
FY05 Expenditures by Object

	Expenditures	Percent
Salaries	23,098,768	77.60%

Figure 5

FY05 IOWA EARLY INTERVENTION BLOCK GRANT PROGRAM FY05 Expenditures by Object

Source: FY 2005 Certified Annual Report

Note: Totals may not add to 100.0 percent due to rounding.

In FY 2005 the largest districts (+7,500) spent the smallest percentage of early intervention funds on staff salaries at 75.16 percent. Small districts in the 250-399 and 400-599 enrollment categories spent the highest percentage of funds on staff salaries both over 80 percent. The very smallest districts utilized purchased services the most in FY 2005 at 4.00 percent.
